

DISCOVER THE NEW INITIATIVES OF SECTO DESIGN

The ecological birch wood has been the material of the Secto Design lamps from the very beginning. Today, the company is investing even more in the environmental friendliness throughout its actions. Secto Design is currently carrying out a Life Cycle Analysis study (LCA). By these verified studies it will be possible to present a completely realistic picture of its environmental impacts.

Alternative and more ecological packing materials are something Secto Design has been investing in. Hence, the Petite product line is the first one to be delivered completely plastic-free from the 1st of February 2024.

Secto Design France is participating Maison&Objet In the City, welcoming everyone to visit the beautiful Showroom on 34 avenue des Champs-Élysées. The Secto Design France team will be guiding the visitors through the beloved collection as well as sharing the latest commitments to the ecological matters.

Maison&Objet In the City
Secto Design Showroom
34 avenue des Champs-Élysées
75008 Paris

17th to 22nd of January 2024
Wednesday 17th: 9-17:00
Thursday 18th - Friday 19th & Monday 22nd: 9-18:00

Secto Design is a Finnish family owned company specializing in hand-made design lamps. The entire collection is designed by the award-winning architect Seppo Koho. Secto Design lamps are appreciated for their Scandinavian design and well-known for their versatility and ability to fit in many different interiors and styles.
