Kumulo 5200 pendant lamp

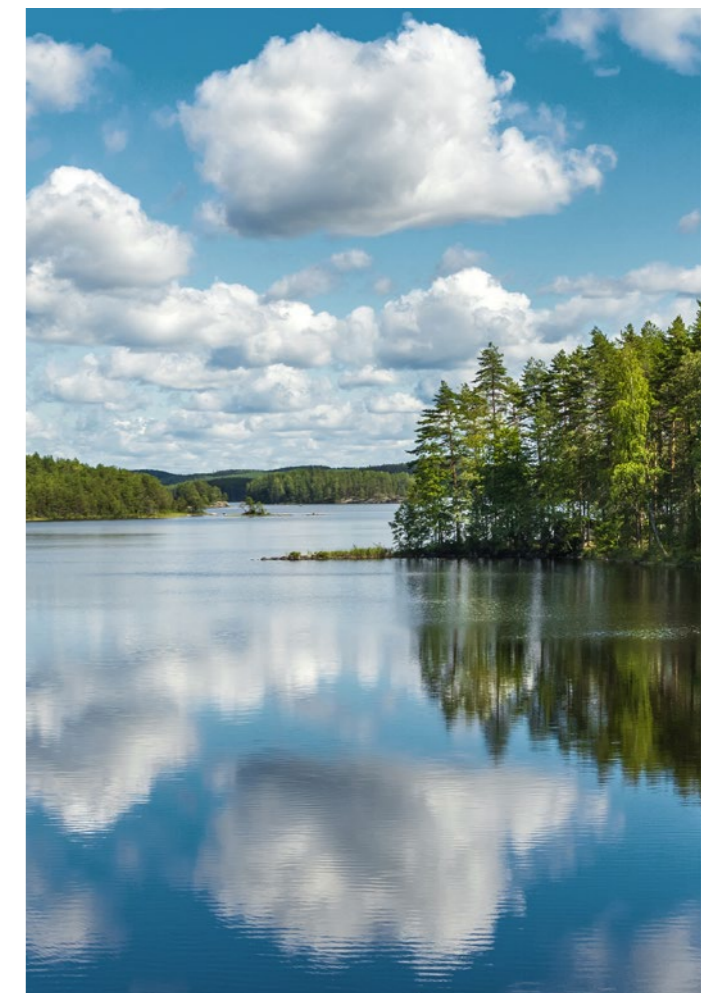

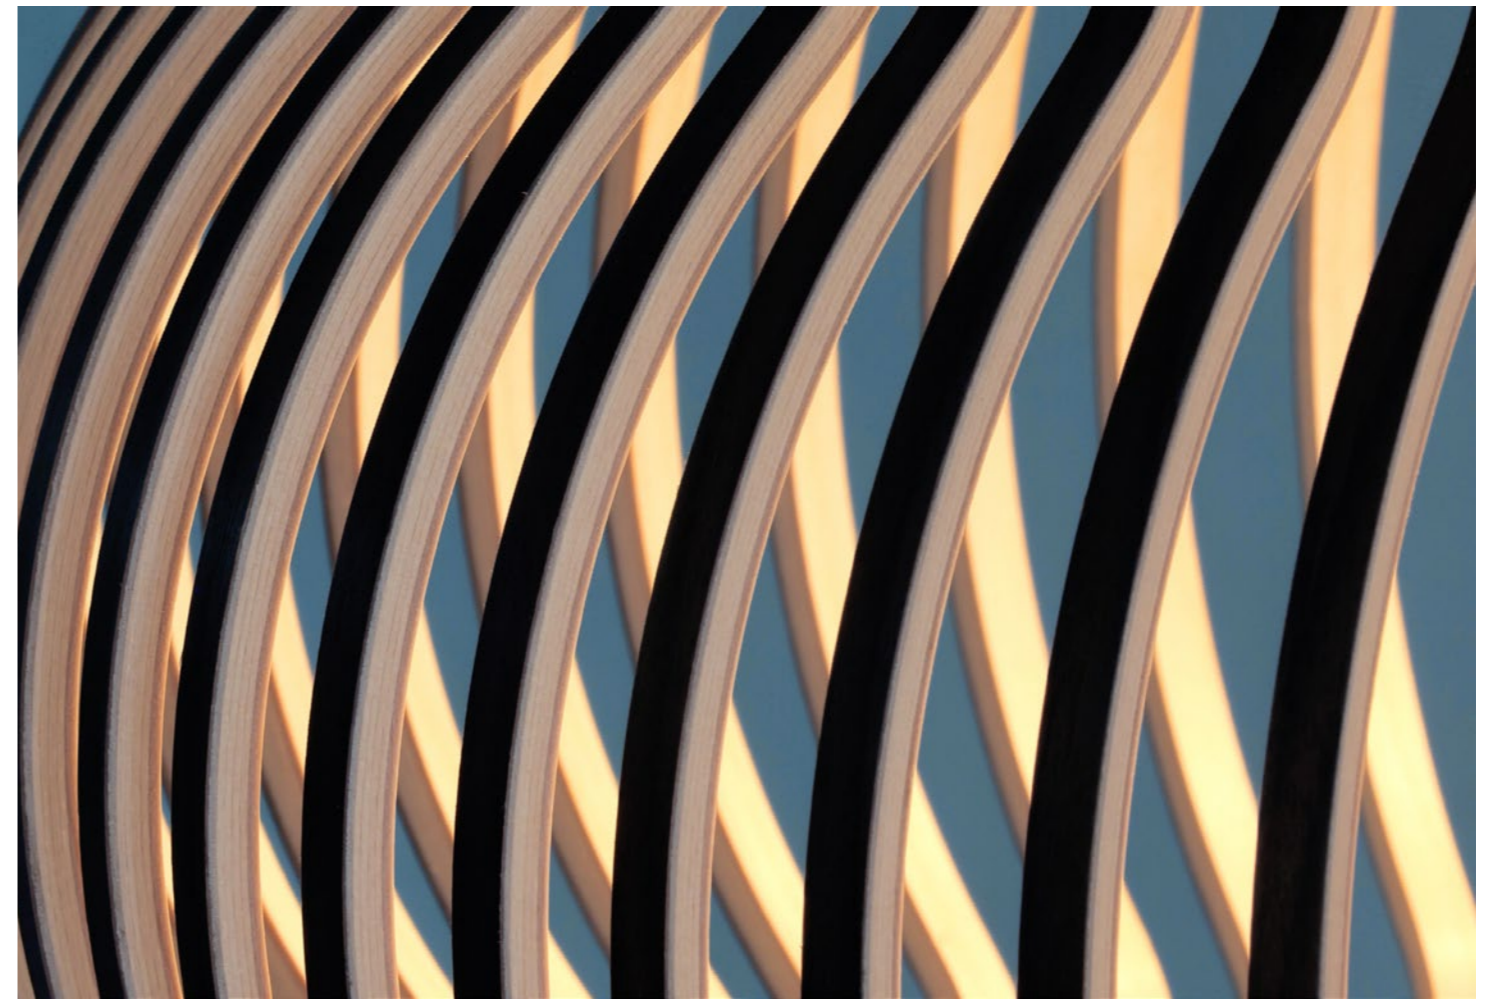

Enchanting undulation

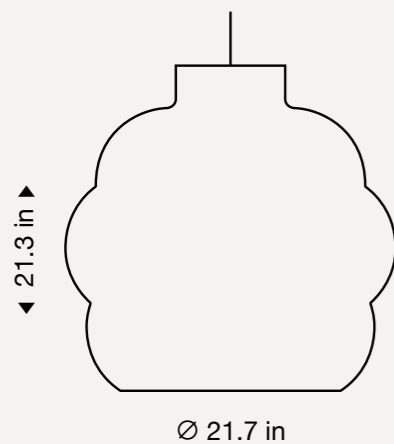

A captivating statement piece inspired by snow-crowned trees and summery cumulus clouds.

Eye-catching, yet lightweight and airy. The idea of the undulating shape of the Kumulo pendant first emerged in designer Seppo Koho's mind during a trip to snowy Lapland and came to life later under a midsummer sky filled with puffy clouds.

"Kumulo can easily become the focal point of a room. It provides a warm, soft light that reflects the shades of the birch wood it is made from", the award-winning designer and architect describes. Like all Secto Design pendants, Kumulo can be used individually, or by combining multiple pieces to create fascinating installations in both private and public interiors.

Kumulo 5200 pendant lamp

Finishes	Shade	Cable + ceiling cup
	● Natural birch	White
	○ White laminated	White
	● Black laminated	Black

Useful information for architects and other project clients is available in the Professionals section

Kumulo 5200 pendant lamp uses the patented ceiling suspension by Dezall

- Height 3.2 in / 3.5 in (with ring)
- Outer upper Ø 4.6 in / 4.7 in (with ring)
- Inner upper Ø 4.4 in / 4.6 in (with ring)
- Weight 0.13 lb / 0.16 lb (with ring)
- Color White or black matt soft lacquer depending on the colour of the pendant.
- Information The round ceiling cup includes an additional ring, which enables leading the cable along the ceiling into the ceiling cup. The additional ring can also be used to cover a larger ceiling socket.
Any extra length of the cable can be swirled into the ceiling cup when altering the hanging height of the pendant.

Secto Design

Secto Design is a Finnish company specialising in premium wooden lighting, handmade from birch by skilled craftspeople in Heinola, Finland. Rooted in the Scandinavian design tradition, the luminaires are known for their minimalist elegance and timeless appeal. The lighting collection launched in 1999 continues to expand steadily, offering versatile solutions that suit a variety of interiors and architectural styles. The natural warmth of wood and the clean, architectonic forms create a captivating ambience, appreciated by both private and professional clients. Today, approximately 95% of production is exported to over 80 countries.

Long-lasting quality lies at the core of Secto Design – alongside functionality, refined forms, a skilful use of natural materials, and thoughtful detailing. Sharing a consistent visual language, the different models can be effortlessly combined to bring harmonious continuity to any space. Their airy appearance comes to life when lit, yet they retain their grace even with the light turned off.

Sustainability is a guiding principle at Secto Design. The lamps are made from locally sourced Finnish birch – a renewable, carbon-binding material – and equipped with LED technology for energy efficiency. Production practices align with the United Nations Sustainable Development Goals (SDGs) and include a comprehensive Life Cycle Assessment (LCA) following EN 15804 standards. The results support the creation of individual Environmental Product Declarations (EPDs) published in 2025.

Finnish birch, known for its strength and resilience, is ideally suited to the form-pressed shapes featured in the collection. Sourced from PEFC-certified commercial forests, the wood comes from ecologically, socially, and economically responsible forestry. The certification also ensures supply chain transparency, with full traceability to the forest of origin.

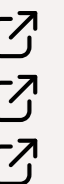

Each Secto Design lamp is a unique piece that reflects the beauty and durability of Finnish birch, offering a lasting investment in craftsmanship and enduring design.
