

PRESS RELEASE

Secto Design is a Finnish company specialized in design lights hand-crafted of top-quality local PEFC-certified birch wood. The demanding work is carried out by our highly talented local craftsmen in the town of Heinola in Central Finland. The entire lighting collection is designed by award-winning Finnish Architect Mr Seppo Koho, with whom the paths of the owner Tuula Jusélius crossed already back in 1995.

The very first Secto lamp, the conical Secto 4200, came out in 1999. Nowadays the collection consists of 23 different models that together form a clear and unique appearance of the brand. Finnish quality and environmental friendliness are among the key values of Secto Design. The lamps are internationally praised for their quality, functionality, timelessness and suitability for a variety of different styles.

The wooden warmth of the design lights suits a variety of different tastes and the lamps are shipped to over 70 different countries around the world. Their clear but interesting architectonic forms are appreciated not only by private clients and professionals, but also by judges of prestige design competitions. This year, the Secto Design lamps have won the following prizes: Fennia IPR Excellence Prize, 2016 Good Design© Award as well as Restaurant and Bar Product Design Award.
