

## PRESS RELEASE

**Secto Design is excited to be back at ICFF** after a long break from live events! It is a great feeling to finally reunite with our customers and colleagues.

**We are proud to introduce the ETL-certified Atto 5000 pendant lamp to the US market.** The Atto is a popular model in Europe and is a stunning lamp, pleasing to the eye with absolutely no trace of flickering. The energy efficiency has also been improved along with the service life. The Atto is a model that looks great on its own or in groups. It can also easily be mixed and matched with the rest of the Secto Design collection.

**We will also be showcasing the Owalo 7000 pendant lamp** at our booth at ICFF. Owalo has been on the US market for a while but due to Covid we have not been able to showcase it here at the fair until now. The Owalo pendant has been designed to fit a variety of spaces such as conference rooms, desks, dining tables and kitchen countertops.

**Secto Design is a Finnish company** specializing in hand-made design lamps from high quality PEFC certified birch. The demanding work is carried out by highly talented craftsmen in the factory in Finland. All Secto Design lamps are sustainably and ecologically produced. The entire lighting collection is designed by the award-winning Finnish architect Seppo Koho. Secto Design lamps are appreciated for their Scandinavian design that is suitable for different styles and interiors.

**Come and visit us at our booth (3129)** and get acquainted with the entire US collection whilst meeting some of our team members. We look forward to seeing you all there!
